The EDC will continue to deliver the electricity supplied by Summer. You will receive a single bill from your local utility that will contain your electric distribution charges and Summer’s charges.

2. BILLING: Customer usage for energy delivered under this Agreement, will be measured by the Utility. In addition, you are responsible for paying your EDC’s distribution and transmission charges as well as any other applicable charges, such as the system benefits charge, stranded cost recovery charge and taxes. Please note that variable prices can increase without notice and may exceed your EDC’s basic service generation price. Historical pricing is not indicative of present or future pricing.
